Re: Notice of oral *ex parte* presentation under 47 CFR 1.1206, Accessibility of User Interfaces, and Video Programming Guides and Menus, MB Docket No. 12-108

On March 6, 2018, the following individuals participated in a telephone conference to discuss the accessibility features noted in Honda Motor Co., LTD's January 20, 2018 interim status report:

FCC representatives:

Media Bureau – Martha Heller, Maria Mullarkey, Sarah Whitesell
Consumer & Governmental Affairs Bureau – Suzanne Rosen Singleton, Will Schell, Karen Peltz Strauss

Honda Motor Co., Ltd. representatives:

Douglas Longhitano, American Honda Motor Co., Inc. (Product Regulatory Office)
Christopher Allen, Honda North America, Inc. (Attorney)
Seun Adekoya, Honda R&D Americas, Inc. (Engineer)
Emily Taylor Lane, PORTER WRIGHT MORRIS & ARTHUR, LLP (Attorney)

The group discussed the current status of the accessibility features in the Honda Pilot and Odyssey vehicles, as detailed in the most recent interim status report. The discussion focused primarily on how the relevant accessibility functions are initiated by the end user, and the extent to which the system is able to provide such accessibility functionality. The Commission represented that it would follow-up at a later date with additional questions generated by the discussion had during the call.

Very truly yours,

/s/ Andrew Emerson
